Instructional Designer & Learning Technology Specialist

eLearning Development | ADDIE Framework | LMS Administration | Technical Onboarding | Learning Operations

Professional Summary

Results-driven **Instructional Designer** and **Learning Technology Specialist** combining a formal background in Cognitive Psychology and educational tech to transform complex, systems-based content into engaging learning solutions. Proven expertise managing end-to-end LMS workflows for 500+ active platform users, including user provisioning, learner record tracking, compliance audits, and system troubleshooting. Adept at leveraging ADDIE, adult learning theories, and modern authoring tools to design scalable onboarding tracks, interactive simulations, and performance support materials that measurably improve operational consistency and business metrics in remote and hybrid environments.

Core Skills

- **Instructional Design:** ADDIE Framework, Adult Learning Theory, Learning Experience Design (LXD), Curriculum Design, eLearning Scripting & Storyboarding.
 - **Training & Development:** New-Hire Systems Onboarding, VILT/ILT, Product & Technical Training, Compliance Modules, Job Aids, Standard Operating Procedures (SOPs).
 - **Learning Operations:** LMS Administration, Data Reporting & Auditing, User Provisioning, Learner Performance Records, Training Completion Tracking.
 - **Stakeholder Engagement:** Cross-functional SME Collaboration, Training Needs Analysis, Project Timeline Management, Assessment Design, Kirkpatrick Evaluation.
-

Learning Technology & Tools

- **Authoring & Creative Design:** Articulate 360 (Storyline, Rise), Canva, Microsoft PowerPoint, Camtasia.

- **LMS & Systems Management:** Cornerstone LMS, Google Classroom, Specialized LMS/SIS Systems, Access Provisioning.
 - **Data & Performance Analytics:** Advanced Excel, Google Sheets, Automated Learner Progress Dashboards, Audit Reports.
 - **Collaboration Suites:** Microsoft Teams, Zoom, Outlook, Google Workspace, AI-assisted Storyboarding Frameworks.
-

Professional Experience

Learning Technology, LMS Administration & Instructional Design | *Sept 2025 – June 2026*

Uplift Ascend Charter School

- Administered end-to-end digital learning operations and LMS workflows for 500+ platform users, securing learner-record integrity, content availability, and system access permissions.
- Designed structured, project-based asynchronous learning experiences, visual rubrics, and digital training materials mapped directly to measurable performance outcomes.
- Created over 25 learner-facing multimedia resources, including software step-by-step documentation guides, evaluation rubrics, and interactive performance-support aids.
- Managed technical user provisioning, permission access levels, security groups, progress tracking logs, and routine system troubleshooting for transitioning accounts.
- Audited, updated, and logged over 1,000 centralized data points capturing compliance records, user attendance timelines, and individual performance benchmarks.
- Partnered alongside cross-functional leadership teams, subject experts, and users to isolate learning needs, optimize digital content delivery, and iron out platform access barriers.

Instructional Delivery & Learning Operations | *Feb 2025 – Present*

Kokua Education; The Little Preschool

- Executed structured, pre-planned instructional blueprints across diverse user groups while ensuring total alignment with organizational safety, documentation, and operational standards.
- Adapted instructional delivery metrics across multiple environmental constraints and learner requirements while maintaining rigorous daily administrative reporting tracks.
- Tracked individual user developmental milestones, attendance histories, performance notes, and essential administrative documentation with high accuracy.
- Communicated behavioral milestones, training timeline updates, and operational updates clearly to internal supervisors, administrative coordinators, and external stakeholders.

Learning & Program Operations Coordinator | Jan 2022 – May 2025

Wow Art Party | Freelance Workspace

- Designed custom creative learning tracks, guided technical workshops, and user-facing instructional documents for community training events.
- Orchestrated client operational onboarding pathways, complex scheduling timelines, system communications, invoice tracking, and vendor coordination.
- Created high-impact digital marketing assets, automated customer communications, event schedules, and support files across multiple web environments.
- Maintained absolute accuracy across billing databases, customer enrollment files, bookkeeping spreadsheets, and vendor tracking documentation.

Program Design & Project Lead | Feb 2024 – Apr 2024

Independent Non-Profit Program

- Led a targeted, short-term professional development and cultural arts learning program from conception through live deployment.
- Managed system outreach pipelines, master calendar scheduling, vendor contracts, project budgets, and active communication loops with corporate stakeholders.
- Secured \$10,000 in operational program funding via strategic donor outreach campaigns, target tracking matrixes, and cross-functional community coordination.
- Designed clear user-facing operational guides, communication layouts, and scheduling paths to ensure completely friction-free program delivery across volunteers and external vendors.

Selected Instructional Design Portfolio Projects

(<https://nejmeartist-coder.github.io/aseel-refai-portfolio/>)

- **E-Commerce New-Hire Onboarding Matrix (Articulate Storyline & Figma):** Designed a 30-60-90 day onboarding track for supply chain staff, reducing order-fulfillment data-entry errors by 22% and shortening employee ramp-up times by 14 days.
 - **Visual Literacy Architecture Module (Articulate Rise 360 & Canva):** Developed a mobile-responsive asynchronous course utilizing progressive disclosure and interactive gesture-led sorting blocks to accelerate data visualization scanning accuracy for field personnel.
 - **Storyline Systems Training Simulation & Analytics Dashboard:** Engineered a click-path systems training simulation to safely walk users through complex technical workflows, paired with an advanced Excel LMS audit dashboard tracking real-time completion compliance metrics.
-

Education & Certifications

- **Master of Arts in Education: Leadership & Emerging Technologies** | Rocky Mountain College of Art + Design (CO)
 - **Bachelor of Arts: Fine Arts and Art Education** | University of Texas at Arlington (TX)
 - **Texas Educator Certifications (In Progress):** Core Subjects with STR (4–8)
 - **International Training Experience:** 5+ years optimizing instructional pacing and delivery across professional spaces in Thailand and Kuwait.
-
