Learning Experience Designer & Instructional Technology Specialist

eLearning | ADDIE | LMS Administration | Corporate Training | Learning Operations

Professional Summary

Results-driven Learning Experience Designer and Learning Technology Specialist combining an advanced background in emerging learning technologies and digital media design to transform complex, systems-based content into engaging enterprise solutions. Proven expertise managing end-to-end LMS workflows for 500+ active platform users, including user provisioning, learner record tracking, compliance audits, and system troubleshooting. Adept at leveraging ADDIE, adult learning theories, and modern authoring tools to design scalable onboarding tracks, interactive simulations, and performance support materials that measurably improve operational consistency and business metrics in remote and hybrid environments.

CORE SKILLS

- **Instructional Design:** ADDIE Framework, SAM Methodology, Adult Learning Theory, Learning Experience Design (LXD), Curriculum Design, eLearning Scripting & Storyboarding.
- **Training & Development:** New-Hire Systems Onboarding, VILT/ILT, Product & Technical Training, Compliance Modules, Job Aids, Standard Operating Procedures (SOPs).
- **Learning Operations:** LMS Administration, Data Reporting & Auditing, User Provisioning, Learner Performance Records, Training Completion Tracking.
- **Stakeholder Engagement:** Cross-functional SME Collaboration, Training Needs Analysis, Project Timeline Management, Assessment Design, Kirkpatrick Evaluation.

LEARNING TECHNOLOGY & TOOLS

- **Authoring & Creative Design:** Articulate 360 (Storyline, Rise), Figma, Canva, Microsoft PowerPoint, Camtasia.
- **LMS & Systems Management:** Cornerstone LMS, Google Classroom, Specialized LMS/SIS Platforms, Access Provisioning.
- **Data & Performance Analytics:** Advanced Excel, Google Sheets, Automated Learner Progress Dashboards, Audit Reports.
- **Collaboration Suites:** Microsoft Teams, Zoom, Outlook, Google Workspace, AI-assisted Storyboarding Frameworks.

PROFESSIONAL EXPERIENCE

Uplift Ascend Charter School

High School Art Instructor / Learning Technology & LMS Administrator | Sept 2025 – Present

- **LMS Architecture:** Administered end-to-end digital learning operations and LMS workflows for 500+ platform users, securing learner-record integrity, content availability, and system access permissions.
- **Curriculum Engineering:** Designed structured, project-based asynchronous learning experiences and visual rubrics utilizing ADDIE/SAM frameworks mapped directly to measurable performance outcomes.
- **Asset Production:** Storyboarded and created over 25 learner-facing multimedia resources, including interactive eLearning modules, step-by-step software guides, and evaluation rubrics.
- **Access Provisioning:** Managed technical user provisioning, permission access levels, security groups, progress tracking logs, and routine system troubleshooting for transitioning accounts.
- **Data Auditing:** Audited and logged over 1,000 centralized data points capturing compliance records, user attendance timelines, and individual performance benchmarks to measure training effectiveness.
- **SME Collaboration:** Partnered alongside Subject Matter Experts (SMEs) and cross-functional leadership teams to conduct training needs analyses, isolate learning gaps, and optimize digital content delivery.

Kokua Education

Substitute Teacher / Learning Operations Specialist | May 2025 – Sept 2025

- **Blueprint Execution:** Executed structured, pre-planned instructional blueprints and training curriculum across diverse user groups while ensuring total alignment with organizational safety, documentation, and operational standards.
- **Pacing Adaptation:** Adapted instructional delivery metrics across multiple environmental constraints and learner requirements while maintaining rigorous daily administrative reporting tracks.
- **Milestone Tracking:** Tracked individual user developmental milestones, attendance histories, performance notes, and essential administrative documentation with high accuracy.
- **Stakeholder Communication:** Facilitated active feedback loops, communicating behavioral milestones, training timeline updates, and operational performance metrics clearly to internal supervisors, administrative coordinators, and external stakeholders.

Wow Art Party | Freelance Workspace

Learning & Program Operations Coordinator | Jan 2022 – May 2025

- **Workshop Design:** Designed custom creative learning tracks, guided technical workshops, and user-facing instructional documents utilizing adult learning principles for community training events.
- **Onboarding Orchestration:** Orchestrated client operational onboarding pathways, complex project timelines, system communications, invoice tracking, and vendor coordination.
- **Digital Operations:** Created high-impact digital marketing assets, automated customer communications, event schedules, and support files across multiple web environments.
- **Database Auditing:** Maintained absolute accuracy across billing databases, customer enrollment files, bookkeeping spreadsheets, and vendor tracking documentation.

Independent Humanitarian Arts Initiative

Cross-Functional Program Director & Event Producer | Feb 2024 – Apr 2024

- **Cross-Functional Leadership:** Managed the end-to-end project lifecycle, building, launching, and directing a short-term humanitarian community program and fundraising event from initial concept through live deployment.
- **Stakeholder Management:** Partnered alongside non-profit humanitarian organizations, independent artists, musicians, volunteers, and a commercial restaurant venue to align cross-functional workflows.
- **Corporate Partnerships:** Managed system outreach pipelines, corporate sponsorship communications, vendor contracts, project budgets, and active project management communication loops with external business partners.
- **Budgeting & Fundraising:** Secured \$10,000 in operational program funding and charitable donations via strategic outreach campaigns, target tracking matrixes, and coordinated donor pipelines.
- **Operational Design:** Designed clear user-facing operational guides, volunteer scheduling paths, and communication layouts to ensure completely friction-free program delivery across 20+ vendors and team members.

SELECTED INSTRUCTIONAL DESIGN PORTFOLIO PROJECTS

<https://nejmeartist-coder.github.io/aseel-refai-portfolio/index.html>

- **E-Commerce New-Hire Onboarding Matrix (Articulate Storyline & Figma):** Designed a 30-60-90 day onboarding track for supply chain staff, reducing order-fulfillment data-entry errors by 22% and shortening employee ramp-up times by 14 days.
- **Visual Literacy Architecture Module (Articulate Rise 360 & Canva):** Developed a mobile-responsive asynchronous course utilizing progressive disclosure and interactive gesture-led sorting blocks to accelerate data visualization scanning accuracy for field personnel.
- **Cross-Functional Feedback & Data Compliance Matrix (Articulate Rise 360):** Programmed an interactive training matrix centered around realistic risk-mitigation scenarios. Equipped leadership teams with active compliance verification steps, reducing policy infraction risks and improving data-handling velocity.

EDUCATION & GLOBAL TRAINING

- **Master of Arts: Emerging Learning Technologies (ELET) | Rocky Mountain College of Art + Design (CO)**
- **Bachelor of Arts: Fine Arts and Art Education | University of Texas at Arlington (TX)**
- **International Training Expertise:** 5+ years optimizing instructional pacing, media deployment, and learning delivery tracks across multicultural professional spaces in Thailand and Kuwait.
